**RESPONDERS' COMMENTS FOR ISP 203L 019 (SS20)****Question 26: What aspects of this course were most helpful for your learning?**

- Being assigned lab groups so we could ask them questions if we needed help.
- Collaboration and TA's help
- Doing labs hands on with groups
- groups
- hands on learning
- Hands-on activities
- Learning the material and then being able to put it to use and actually see it within a lab
- The labs
- The labs and hand on work
- We got weekly emails saying what was due and when. That was super helpful because of all the course work I have to complete

**Question 27: What changes would you recommend to improve this course?**

- Don't make assignments due before class the pre labs should be submitted by the end of class. Also, if a student misses a class instead of just giving the student zeros even if they complete the assignment and is no chance for partial credit.
- I didn't like that we had to walk around in the freezing cold and that the class was at 8 am.
- I don't think anything needs to be improved.
- I think it was well organized and if COVID didn't happen it would have been good
- lectures
- Make the labs more fun
- Maybe more emphasis on completing labs for credit
- N/A
- None!
- not sure

**Question 28: What did your instructor do well in helping you learn?**

- Engaged with the students frequently
- gave great feedback
- made sure to help during labs and didn't just leave us to figure it out
- one on one
- Plenty of hands-on activities when the class was in-person
- Posting lectures on slides, explained labs clearly
- She always answers her emails on time and grades very fast.
- She made everything very clear and always answered questions.
- She was hands on and helped us during lab work
- To the point and highlighted the major takeaways

**Question 29: What changes could your instructor make to improve your learning?**

- Help explain the project a little better
- I don't have any complaints about her.
- I don't think any changes should be made.
- I think we could go over specific mechanics during a lecture
- lectures
- N/A
- None!
- Not really anything

- not sure

## RESPONDERS' COMMENTS FOR ISP 203L 025 (SS20)

### Question 26: What aspects of this course were most helpful for your learning?

- everything
- Going over the powerpoints in class that explained the labs we did
- hands on learning
- Lab manuals to understand exactly what was expected of us during the lab, and also to provide a helpful place to recheck
- Office hour was very helpful.
- Student engagement
- The Experiments.
- The hands on activities
- The labs
- The most helpful part was the feedback the professor would give me after submitting an assignment. She gave great feedback in the future.
- This course applied a lot of knowledge that corresponded with my ISP 203A class. It was a good practice for understanding
- We did powerpoints in class on the material that would fully explain the lab before we started, so we knew what we were doing in class when we had questions and understanding with technical difficulties I experienced.

### Question 27: What changes would you recommend to improve this course?

- Can't think of anything.
- Decreasing assignments would be helpful.
- Doing more outside labs. I enjoyed going outside and taking data from the river, etc. Maybe add in more labs where you can go outside.
- I would recommend making it relate more to the ISP course we are taking
- I wouldn't change anything
- More direction on what exactly is on the tests.
- More hands on labs
- more lab time
- no change
- None
- Not grade the pre and post labs so hard.
- Nothing
- The pre-lab and post-lab assignments were often pretty extensive and took a lot of time to complete, and a lot of the time I needed to complete the assignments.

### Question 28: What did your instructor do well in helping you learn?

- allowed people to ask questions, and helped with the individual projects
- Be encouraging and get feedback back fast.
- Everything she did helped
- excel scatterplot
- Letting us ask questions.
- Meeting in office hour was helpful.
- office hour
- One was the feedback and the other was lab groups. Everyone had a group of students to work with and bounce ideas off of for labs and assignments because we were able to help each other come up with answers and ideas.
- She always made sure we were understanding what we were doing in each of our labs to ensure we get labs done correctly
- She was very helpful with questions in class, and responded promptly to my emails. She was very understanding with technical difficulties.
- She was willing to answer questions
- was able to engage

- Was clear and provided well thought out feedback
- Whenever I needed help, needed to stay for an extra minute to discuss something, or asked a question in person or e helpful.

**Question 29: What changes could your instructor make to improve your learning?**

- be more enthusiastic. I know she liked the subject, but it didn't really seem like it.
- Lindsey was very nice one-on-one but seemed cold in front of the class which made students not want to participate a
- More group work would be helpful.
- N/A
- No improvements need to be made. She was there during class and out of class. She was very easy to reach and wo would respond to emails frequently.
- None
- None that I can think of
- None.
- noope
- Nothing
- Nothing I can think of.

**Question 37: What is your age?**

- 18
  - 19
  - 20
  - 21
