RESPONDERS' COMMENTS FOR ISP 203L 004 (FS16)

Question 26: What aspects of this course were most helpful for your learning?

- -I think that the organization of this course was good, which made it easy to know what I had to do and when.
- going out and learning through experiencing it.
- Having it be so hands on so I could actually understand the material
- none
- Professor was able to make it much easier for me to learn.
- sfddgs
- The fact that she would make an immense effort to make sure that we understood the material before going into experiments for the day.
- The hands on learning was what helped me best
- The internet
- The lab demonstrations and in-class experiments were helpful
- The lab testing/experiments.
- the powerpoint slides
- The TA was very nice and caring and made sure we learned and was helpful
- The way that post-labs and pre-labs set up the lesson and showed how it was relevant.

Question 27: What changes would you recommend to improve this course?

- -None
- dgsdgadgsgds
- Don't make us do a prelab, lab, and a postlab.
- Explain excel a little better
- I would make the poster project less expensive because we only use the poster for one day and we're college students.
- It's a science course so nothing necessarily can be changed about that.
- Make the weeks build on each other. They all seemed so random.
- N/A
- None
- nothing! Was a great course

Question 28: What did your instructor do well in helping you learn?

- -She asked if everyone understood the material many times and would explain things more clearly until it was understood by everyone. She was helpful
- Always answered emails and questions
- answering all the questions needed
- dgsdgsgds
- Engaging the class and not just reading the slides.
- helped to do the in class labs with the students to make sure we understood materials
- none
- Nothing
- She explained the objectives of the labs very well so I knew what I had to accomplish
- She made sure to answer all questions asked and meet with everyone individually to talk about grades and projects.
- She made sure we understood what we were being taught before moving on to the next thing.
- She was very nice and helpful and understood that none of us were science majors and were not that interested in the course.
- Using visual examples to help teach the class
- Was helpful in lab when I would get stuck on a problem or in an experiment.

Question 29: What changes could your instructor make to improve your learning?

- -Maybe email us before the day of the lab about what to bring or expect in the lab.
- explain excel and graphs more
- gsdgdsgdsgds
- More experiments.
- N/A
- none
- none, she did a good job.
- None.

RESPONDERS' COMMENTS FOR ISP 203L 006 (FS16)

Question 26: What aspects of this course were most helpful for your learning?

- A lot of busy work
- Hands on activities
- Hands-on experiments.
- Learning about the RCR
- Most of the labs we did we interesting and helpful.
- none
- Real life correlation to what we were learning.
- The hands on experiments were useful, because I would not have had the resources to experience that elsewhere.
- The instructor is always there to help. And she responded very soon and everything was effective.
- The prefabs really helped me prepare for the upcoming classes
- The way my instructor broke down each lecture to make sure everyone understood it.
- very good instructor

Question 27: What changes would you recommend to improve this course?

- Better explanations of excel and graphing material
- Better ways to do assignments rather than this online b,s.
- I would change the overall schedule of the course, and try to group related topics more close together.
- Less irrelevant pre/post lab readings.
- Making it less intensive because it is for those who are not science majors.
- more help explaining how to use excel
- no changes
- Not as much busy work
- Nothing
- Pre-labs and post-labs were pointless. One would be fine, but doing both each week was not worth the time, I didn't learn from it very often.

Question 28: What did your instructor do well in helping you learn?

- Anytime I had questions she was very helpful.
- Broke everything down for us and was helpful in answer questions.
- Communication.
- Connecting it to the real world.
- How to graph things properly.
- Lindsay was a great TA! She was always available to help
- made everything clear what to do and was always hands on helping
- none
- She always helps and email us every week before the class. During the class she is very patient for everyone.
- She was always open to questions and was available to help outside of class if needed
- She was good at helping
- She was very approachable and easy to communicate with.
- Teaching and explaining how to use excel and graph things

Question 29: What changes could your instructor make to improve your learning?

- Be more enthusiastic when presenting. There were times where she was really excited about things, and that's when the class was best.
- better power points
- Can't think of any. She was an awesome instructor!
- Explaining more.
- idk
- Just group related topics together. Go more over Excel work and help us understand how to do the many things that are asked of us on Excel.
- Maybe answer e-mails a little more quickly, but that is a small thing.
- none
- Nothing
- Nothing.

Question 37: What is your age?

- 19
- 20
- 20

- 21
- 22
- N/A
